

## Firescreen kits

These firescreen kits are just stunning. The eight designs are worked on 32 count gauze and provide a wide range suitable for many types of room in your dollhouse. The high-quality white metal kit comes as three pieces which are simply glued together with contact adhesive, then primed and finished off with either a gloss or matt enamel paint of your choice. The Humbrol shade that we used for each firescreen, easily obtained from hobby shops, is listed on the relevant instruction sheet. Full instructions for how to mount the finished stitching neatly in the frame are included in the kit, which comes in a smart plastic box, perfect for a gift (to a friend, or yourself!).

## Wallhanging kits and charts

These wallhangings would suit residences based on historical periods from medieval to Victorian. **The kits** include 22 count white canvas, colour block chart and clear instructions, tapestry needle, stranded cotton and backing fabric. To hang the tapestry from the wall, there is ribbon to make tabs, a piece of dowel for the pole and enough extra thread included to make a decorative hanging cord, if desired.

**Chart packs** contain a black and white symbol chart, instruction sheet and colour key for Anchor, DMC and Madeira stranded cotton threads.
